Brazil Business - Qualitative Research Sector Mosaic Ceramic

venerdì, 11 dicembre 2009

July and August and September two Project Managers have made for SA Luxury Italian (160 million sales) a market research study focusing on the field of ceramic coating in Brazil with particular attention to the mosaic.

Geographically the study was developed by the Northeast States starting from Fortaleza, reaching the southern states of Santa Caterina (RS). In addition to visiting different Brazilian showrooms industries and shops on the niche market area of ceramic tile mosaic, the most important meetings were with Anfacer (National Association for ceramic coating) in Sao Paulo and Florianopolis Asulcer.

Brazil - Tenders International Electricity in Brazil Italy - Cosmetics "Production outsourcing" opportunities bra

sabato, 23 maggio 2009

For an Italian company international manufacturer of radio transmitters power grid, we verified the possibility to enter Brazil in order to participate in international tenders.

Firstly we checked the possibility of medium and large scale projects to be implemented in Brazil in the years to follow. Having seen a rapid progression of development of the sector has decided to investigate the mode of market entry.

After checking the standard mode of entry as well as timing of the medium-long term, 12.24 months for the bureaucracy we found a better form that has created much interest in the Italian company, as made operational without having to invest capital in advance.

venerdì, 22 maggio 2009

Opportunities for the cosmetic market related the of production "outsourcing". Created with a Partnership of a Brazilian cosmetics brand with 400 stores and 32000th representatives and a mutual experience in contract manufacturing.

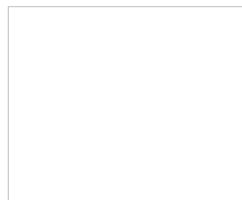

We offer for the cosmetic market the opportunity to have competitively priced products account third fully customizable from cheap to high quality products.
